

The Careers & Enterprise Company

Connecting education and business

THE CAREERS & ENTERPRISE COMPANY

We are a national organisation set up by government. Our goal is to make it easier for employers like you to inspire and prepare young people for the fast-changing world of work.

Why work with us?

- 1. National coordination:** our 150 Enterprise Coordinators can link you to schools and colleges across England.
- 2. School and college Careers Leaders:** we are training Careers Leaders in every school and college to make your engagement easier.
- 3. Alignment with best practice:** we can align your work in schools and colleges to international best practice - the Gatsby Benchmarks - and identify high-quality programmes for you to work with.

Business benefits

Build the talent pipeline for your industry and your business.

Give back to your local community.

Engage and develop your current workforce through volunteering.

Did you know?

Two thirds of businesses are concerned there will be a lack of sufficiently skilled people to fill their roles over the coming years.¹

Four or more encounters with the world of work significantly increases a young person's future earnings.²

In order to meet the ambition set out in the Careers Strategy, employers need to reach out to one young person a year for every seven employees in their workforce.³
