What you need to know

The United Kingdom will be leaving the European Union at 11pm UK time on 29 March 2019.

Leaving the EU with a deal remains the Government's top priority and would give businesses stability and certainty to prepare for our new relationship after EU Exit.

However, the government must plan for every possible outcome including no deal. Without a deal, businesses may need to take action before 29 March 2019.

Use this information to understand how leaving the EU may affect your business and what you can do to get ready.
